

## Scratch User Agreement

### These are Scratch Community Guidelines

We need everyone's help to keep Scratch a friendly and creative community where people with different backgrounds and interests feel welcome. Scratch welcomes people of all ages, races, ethnicities, religions, abilities, sexual orientations, and gender identities.

#### **Be respectful.**

When sharing projects or posting comments, remember that people of many different ages and backgrounds will see what you've shared.

#### **Be constructive.**

When commenting on others' projects, say **something you like** about it and offer suggestions.

#### **Share.**

You are free to remix projects, ideas, images, or anything else you find on Scratch – and anyone can use anything that you share. Be sure to **give credit when you remix**.

#### **Keep personal info private.**

For safety reasons, **don't give out any information that could be used for private communication - such as real names, class, phone numbers, addresses, email addresses, links to social media sites or websites with unmoderated chat.**

#### **Be honest.**

Don't try to impersonate other Scratchers, spread rumours, or otherwise try to trick the community.

#### **Help keep the site friendly.**

If you think a project or comment is mean, insulting, too violent, or otherwise inappropriate, click "Report" to let us know about it.

I agree to follow these guidelines at all times when using Scratch. I understand that the school scratch account is safe because I cannot be identified and that my work and interactions online are moderated by the Scratch Team and the school's Coding Teacher.

**My Name:** \_\_\_\_\_ **Class** \_\_\_\_\_
